Automatic High Output Furnace Humidifier

Brand new, in the box, with instructions, all small parts remain sealed in factory packaging.

BRAND NEW w/FULL FACTORY WARRANTY.

Bought the wrong model for my older HVAC system.

(Turned out I needed Aprilaire Model 600m bypass model)

This unit won't work with my system without extensive rewiring and re-switching of my older system, costing an additional \$500+ to install.

Humidifies the whole house! Makes your home more comfortable in winter when furnace is running!

Greatly reduces static electricity, and clears up those dry indoor air sinuses.

Item cost me \$260+ shipped. Asking \$210.00, CASH ONLY PLEASE!
